

AKORN is pleased to announce that through a special collaboration with

ROBOGALS – Melbourne Chapter

**we are able to offer an opportunity to your school to participate in a STEM based
MIDDLE SCHOOL ROBOTICS WORKSHOP and COMPETITION**

- Date: **Wednesday February 26 2020**
- Venue: **University of Melbourne – Event Space**
333 Exhibition Street, Melbourne (Near corner of Exhibition/La Trobe Streets
between IGA & Mantra Hotel - Enter through La Trobe Street – Sign on Door)
- Time: 9:15 am – 2:30 pm
- Who: The opportunity for **six teams of SIX Year 7 or 8 Students** interested in learning about Robotic Engineering while engaging their thinking and reasoning skills in a fun hands-on environment
- Cost: \$350 per team – covers program, morning tea, lunch, all materials

WHAT IS IT?

Creative Innovative Challenging Fun Thinking

Akorn and the Melbourne Chapter of **Robogals** are excited about working together again in 2019 to offer this opportunity. (it is anticipated that we will announce additional dates later in the year.)

This fun hands-on day will provide information about various disciplines of engineering and some of the many opportunities it offers. The day starts with an information session followed by a robotics workshop. The final segment of the day will be a series of challenges with increasing levels of difficulty. Students will gain additional life skills such as communication, collaboration and critical thinking as well.

Participation is limited so be quick to register your school & students. If you would like to increase the awareness and knowledge of engineering, science and technology to your students through this program please contact:
